DLA Aviation
REVERSE AUCTION
PROGRAM

Industry Day Briefing

19 April 2016
Objectives

To Discuss:

• Reverse Auction Overview

• Highlight of Procurex Tool
Why Reverse Auction?

• Reverse Auction is a pricing tool
  - Allows offerors to submit real-time, electronic bids in response to competitive solicitations during the negotiation phase

• Reverse Auction establishes the final price offered
  - Does not change the evaluation or award process
Overview

• The Reverse Auction tool may be used in a wide range of circumstances including:
  - Pricing of competitive commercial and non-commercial items
  - Long term and one time buys
  - Competing Delivery Orders

• Used in acquisitions > $150K
  - Fully Competitive or Multiple Sources identified
  - Two or more acceptable offers
Overview (Continued)

• Requirements of the Reverse Auction Provision 52.215-9023(d):
  - Offerors agree to participate in the auction
  - Prices may be publicly disclosed during the auction
  - Identities will remain anonymous
  - Offerors are not required to revise their price during the auction

• Exceptions to the Reverse Auction Provision
  - Written exceptions render the proposal unacceptable, or bids non-responsive
  - Offer will not be evaluated further
Overview (Continued)

• Offered Prices:
  - Lowest price is disclosed to all auction participants
  - Number of participants is not disclosed
  - Identities will remain anonymous

• Offers of the Same Price:
  - Reverse Auction tool identifies the ‘Lead’ / ‘Not-Lead’
    • Lead offeror sees only their bid; Not-Lead will see the identical price
    • Lead offeror is considered the low bid
    • DLA revised provision to prohibit tie offers / bids
Overview (Continued)

• After the Auction:
  - Final Offered Prices will be used

  - All Evaluation Factors will be utilized as cited in the solicitation

  - Award decision will be based on the “Best Value” to the Government, not always the lowest offered price.

• Source Selection process is not changed
Highlights of the Reverse Auctioning Pricing Tool (RAPT)

“Procurex Inc RAPT”
Accessing Procurex Sourcing Site

• Navigate to dla.procurexInc.com
  - Login by entering your email and password
  - If you want to register in advance, you may do so at the Procurex website -“Register Your Company”
  • See Seller ‘Software Training’ Guide for more instructions

• Reminders:
  - Allow for Procurex emails to come to your inbox—prevent them from going to SPAM Email updates will be sent when changes are made to a scheduled auction
Accessing Procurex Sourcing Site

• Buyers may load you in advance to invite you to an auction

• The initial Procurex Inc. email invitation will:
  - Notify you of an event
  - The buyers personal invitation code will be included in the email, which enables Procurex to inform you via email once they approve you as a new supplier.
  - At this point you will receive an email from Procurex providing you with a temporary password which you can use to log into the system for the first time.
Your company has been approved on the DLA's Procurex sourcing system. If you did not register your company yourself, the DLA has registered your company for you, using the email address they have on file, from a Solicitation response, Cage Code, and data from the System for Award Management (SAM).

The DLA uses the Procurex Reverse Auction Pricing Tool (RAPT) system (dla.procurexinc.com) to conduct Reverse Auctions among the respondents to Bid Solicitations. A Reverse Auction is an online live competitive pricing event to enable bidders to compete for to win DLA awards in a fair and transparent fashion.

OVERVIEW OF THE DLA REVERSE AUCTION PROCESS:
When a DLA Reverse Auction is created, you will receive a separate email with instructions for how to bid. (Please ensure that your email system has @procurexinc.com as an approved sender to ensure proper receipt to your In Box and not blocked as Spam or placed in your Junk Mail folder.)

Your Solicitation response price(s) will be pre-entered by the DLA Buyer as part of the event set up. In the Reverse Auction event, you will be able to view your bid and the Lowest Bid submitted among all respondents. During the live reverse auction, you will be able to reduce your bid price as many times as you wish as the auction progresses in order to maximize your chance of winning the award. You must login and Accept the Reverse Auction Event invitation in order to view the details of the event - date and time of the live Reverse Auction, the line item(s), your initial bid price, the lowest bid submitted among all bidders thus far, and all other parameters of the event.

There is no cost at all to use the DLA Procurex RAPT and no "winning bidder" fee.

Our goal is to make your experience with Procurex as easy as possible.

To login, use your email address (c.111schmidt@ce.com) and password you set using above link.
Registering as a New Supplier

- First time log on to Procurex click the New Vendor? Link
- If not the first time Use your email and password to log in
Registering as a New Supplier

- **Phone Number:**
Navigating within the Procurex Site

• Once you login to the website, familiarize yourself with the site by reviewing the training tutorials that are available.

  - View “Training Tools” by selecting “Seller Software Training”
    • This is a Vendor/Supplier User Guide brief that will provide instructions in submitting bids (instructions show sample auction and may not reflect exact screens used in Aviation auctions)

• To Bid in an event, go to the “Event Tools”
  - Select “Accept/View/Bid in Events”
  - Select your auction of choice (i.e. solicitation number)
  - View parameters and terms of the auction
Navigating within the Procurex Site (continued)

• To allow additional users from your company to have access to the auction, go to “Administration” on the home page after you log in:
  - Select “Maintain my company users” to add additional contacts

• If you have questions regarding the following:
  • Solicitation—contact the buyer.
  • Auction—contact the Primary Point of Contact listed in Contacts
  • DLA Aviation’s Reverse Auction Program – dlaavnrevauc@dla.mil
Adding New or Additional Users

Click on “Maintain My Company Users” link located under the “Administration” section to allow additional users from your company to have access to the auction.

**Total Bid Value:** 0.0000

---

**Time remaining until end of auction:** 1:10:23:31

- Lead bid Price
- Bid entry field

**Auction Status** allows you to see your prices in comparison to the Lead bid Price.

- View Start Price which may be the lead bid price
- View Tasks for additional information, such as:
  - View Your Bids
  - View Contacts (included Primary POC)
  - View terms of the auction
Procurex Screen Shots

- View Auction Status opens up another window showing your position of ‘Lead’ or ‘Not Lead’
3 Steps to Bid:

1) Input your price(s)
2) Select “Preview Bid” to verify prices
3) Click “Place Bid”

In order to submit your price you must Note: An error message may appear at bottom of page, e.g. price entered did not meet minimum decrement or price entered is higher than your initial offer. If so re-enter the correct price, preview, and place bid again.
Procurex Screen Shots

- Automatic Extensions may occur if lead bids are submitted within the last few minutes of the auction
- Once the bids have stopped and the auction has ended, it will show as completed
- Status of Auction: ‘Time Remaining’, ‘Suspended’, or ‘Event Complete’
